Summary

I am a B.Tech Computer Science student (2027) passionate about software engineering, full stack web development, and app development. I enjoy coding and problem-solving, and have experience working with Python, C, Java, HTML, CSS, and UI/UX design. Alongside, I've also explored IoT devices, sensors, and rapid prototyping.

I actively participate in hackathons and innovation challenges, where I've earned top positions while working on impactful projects. These experiences have sharpened my technical skills, teamwork, and ability to think under pressure.

Currently, I am focused on building real-world solutions, learning modern technologies, and preparing for a career as a software engineer. I am open to internships, collaborations, and projects that challenge me to grow further.
